THE SPECIAL MEETING OF THE BOARD OF DIRECTORS
OF STOCKTON EAST WATER DISTRICT WAS HELD AT THE DISTRICT OFFICE
6767 EAST MAIN STREET, STOCKTON, CA
ON FRIDAY, MARCH 18, 2022 AT 12:00 P.M., NOON

A. PLEDGE OF ALLEGIANCE AND ROLL CALL

The special meeting came to order at 12:31 p.m.

Present at the District were Directors Atkins, Cortopassi, McGurk, Sanguinetti and Watkins. Also present were Manager Moody, Assistant Manager Hopkins and Administrative Services Manager Carido.

B. CONSENT CALENDAR (None)

C. PUBLIC COMMENT (None)

D. SCHEDULED PRESENTATIONS AND AGENDA ITEMS

San Joaquin County Board of Supervisors, Supervisor Chuck Winn briefly spoke before the scheduled presentations began. Supervisor Winn reported the Sustainable Groundwater Management Act (SGMA) is one of the most discussed topics in regards to San Joaquin County and noted in January 2015 when he took office he inherited the Groundwater Basin and was told it would be very difficult to get all agencies together with one Groundwater Sustainability Plan (GSP). Supervisor Winn commended the 16 GSAs on coming together because we do have one GSP. Supervisor Winn mentioned having a discussion with a reporter down in the valley and in that area, the reporter mentioned every GSA has their own GSP; and re-emphasized that we have one. Supervisor Winn thanked the Department of Water Resources (DWR) on their involvement from the very beginning and with all of their help along the way.

Kris Balaji, San Joaquin County Director of Public Works extended appreciation to DWR noting Public Works is all about partnerships and opportunity to work with each other. Mr. Balaji commented this event today with DWR is an opportunity to further collaboration with our stakeholders in the Eastern San Joaquin Basin. Mr. Balaji stated this is also an opportunity for our local partners from projects such as FiroMAR or FloodMAR and expressed being ready for it. Mr. Balaji commented today is a great opportunity to showcase to the State how the State, County and Local Agencies worked together and expressed hope to reflect in 10 years on all the efforts that were put into solving the problem of sustainability. Mr. Balaji thanked DWR; Supervisor Winn and Supervisor Miller for coming out today.

1. Department of Water Resources – Deputy Director, Paul Gosselin

Department of Water Resources, Deputy Director Paul Gosselin gave a brief overview of his history before joining DWR in his current role of Deputy Director last year June. Prior, Deputy Director Gosselin was Director of Water Conservation, in Butte County working on 3 Plans for 3 Basins that were not critically over-drafted. Deputy Director Gosselin noted Plan development is incredibly complex and commented on the remarkable work to get the Plan submitted on time as we did.

Deputy Director Gosselin provided reflection on the Tour and SGMA, the first observation had when SGMA was passed locally, SGMA is more about relationships and about how we work

together than the technical issues. The DWR has a unique role under the law and the law is built on local control and local discretion; it is absolutely critical for local values and interests to be determined locally. The role of DWR is regulatory, plans are substantially compliant and provide technical assistance tools. It is DWR's goal to get to approval and keep control local. Deputy Director Gosselin mentioned having to recognize the current is more than the last couple of years of funding which has not always been this way; in the past 30 years this is the first time that DWR is not reducing staffing or funding and gave an overview of efforts for grant funding for groundwater recharge; noting that even more critical is finding a collective way statewide that projects get completed so they can benefit in dry years. Deputy Director Gosselin commented on SGMA and the heightened drought with the notion that everything needs fixing now. Deputy Director Gosselin clarified that is not the purpose of SGMA, the purpose is for long-term resilience over time; it has to be adapted along the way and DWR will need to adapt their approach along the way also to ensure they meet the requirement on sustainability. Deputy Director Gosselin stated SGMA will be good for agriculture, communities and the environment. Deputy Director Gosselin added he is available for any questions, comments or thoughts and thanked the group and for hosting the event today.

Director Sanguinetti commented the government provides funding opportunities but usually by the time funding is available, it is too late and everyone is getting a piece of it. Director Sanguinetti stated the addition of the permitting process takes a lot time and money and expressed interest in finding a way to speed up getting the environmental work completed. Deputy Director Gosselin agreed with Director Sanguinetti and reported currently, grant funding efforts have been the fastest at getting the money out to recipients; and as a previous recipient, he is familiar with the process taking about 18-months before receiving grant monies. Deputy Director Gosselin inquired if there are any creative ideas on this noting it is a policy level across the state and this process should not take too much time because recipients could be missing wet cycles due to paperwork.

2. Stockton East Water District – General Manager, Scot A. Moody

Manager Moody welcomed the group and gave a presentation on the projects that Stockton East Water District is doing to put the GSP into action. Manager Moody reported the perception is the District has not done anything in the last two-years. Manager Moody reported the District was historically was formed with the intent to manage groundwater in this area because of the saline intrusion and the groundwater levels in the City have recovered dramatically since the District built the 65 MG Treatment Plant. The District is a wholesaler to the City of Stockton and the District itself is approximately 144,000 acres which includes the City of Stockton. Manager Moody added an interesting fact that the way the District was formed when the City of Stockton's boundaries expand, we expand with them. Manager Moody gave an overview of projects the District has completed such as the District's Habitat Conservation Plan (HCP); managed aquifer recharge efforts to include the new raw water storage pond to the north of the campus; in-lieu recharge of ~5,000 acre-feet since the approval of the GSP by converting 1,800 acres from groundwater to surface water (9-new surface water diversions) and automation of infrastructure to supply Potter Creek with New Hogan and New Melones water supply. Manager Moody then gave an overview of the District's current activities such as the Bellota Project (part of several improvements to facilities on the Calaveras River per the HCP); continuing managed aquifer recharge via a project with SJAFCA, DWR & the USACE to construct a new 96-acre recharge pond on campus that the Engineering Report estimates up to ~16,000 acre-feet of recharge annually and efforts to merge with Central San Joaquin Water Conservation District (Central), noting Central has a contract for ~80,000 acre-feet of New Melones water. Manager Moody then

gave an overview of the District’s planning efforts consisting of an additional 7 SEWD turnouts & 3 Central turnouts with a potential of ~11,600 acre-feet annually; FloodMAR; FiroMAR and the Farmington Dam Conjunctive Use Project which is construction of a new foundation for the existing Farmington Dam to allow for water storage. Manager Moody concluded the presentation and welcomed any questions.

3. Stockton East Water District Site Tour

The participants that were interested took a walk across New Water Lane to view the District’s recharge ponds.

E. REPORT OF THE COUNSEL (None)

The meeting concluded at 1:08 p.m.

F. ADJOURNMENT

President Watkins adjourned the meeting at 1:09 p.m.

Respectfully submitted,

Scot A. Moody
Secretary of the Board

kmc

THE REGULAR MEETING OF THE BOARD OF DIRECTORS
OF STOCKTON EAST WATER DISTRICT WAS HELD AT THE DISTRICT OFFICE
6767 EAST MAIN STREET, STOCKTON, CA
ON TUESDAY, MARCH 22, 2022 AT 12:30 P.M.

A. PLEDGE OF ALLEGIANCE AND ROLL CALL

President Watkins called the regular meeting to order at 12:30 p.m., and Director McGurk led the Pledge of Allegiance.

Present at roll call at the District were Directors Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti and Watkins. Also present were Manager Moody, Assistant Manager Hopkins, Finance Director Vega, Administrative Services Manager Carido, Administrative Clerk Feliciano, Legal Counsel Zolezzi and Consultant Barkett.

B. CONSENT CALENDAR (None)

C. PUBLIC COMMENT (None)

D. SCHEDULED PRESENTATIONS AND AGENDA ITEMS

1. Minutes 03/15/22 Regular Meeting

A motion was moved and seconded to approve the March 15, 2022 Regular Board Meeting minutes, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins
Nays: None
Abstain: None
Absent: None

2. Warrants – California Public Employees’ Retirement System

Director McGurk inquired on the expense on page 9, line item 3 for CA Public Employees Retirement System (CalPERS) for CalPERS Arrears in the amount of \$19,054.89. Manager Moody replied the expense was previously approved for employees that were hired as temporary employees to pay for the years of service worked prior to their permanent hire status. Director McGurk inquired about the reoccurrence of the payment. Finance Director Vega replied the CalPERS Arrear amount of \$19,054.89 was for one employee and the payment was a one-time payment.

A motion was moved and seconded to approve the March 15, 2022 Warrants – California Public Employees’ Retirement System, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins
Nays: None
Abstain: None
Absent: None

3. Dr. Joe Waidhofer Drinking Water Treatment Plant – Disinfection Systems Project Bid Results and Award Memo, 03/22/22

Manager Moody provided the Board with the Disinfection Systems Project Bid Results and Award memo. District Engineer Evensen reported the WTP Disinfection Systems Project for construction of a sodium hypochlorite disinfection system bid opening was a success with five bids received; Engineer estimate for the construction was \$5,726,207 including a 10% contingency and a 5.7% escalation factor for inflation. District Engineer Evensen reported the three lowest bids were reviewed and all were complete; TNT Industrial Inc. provided the lowest bid in the amount of \$5,426,903.91. District Engineer Evensen reported District Staff met with TNT Industrial Inc. to review the bid and it was acceptable. District Engineer Evensen recommend the Board authorize the General Manager to award the WTP Disinfection Systems Project construction contract to TNT Industrial Inc., the lowest responsive and responsible bidder in the amount of \$5,426,903.91, with a 10% contingency of \$542,690, for a total amount of \$5,969,593.91.

Director Sanguinetti inquired where TNT Industrial Inc. is located. District Engineer Evensen replied they are located in Sacramento.

A motion was moved and seconded to award the Dr. Joe Waidhofer Water Treatment Plant Disinfection System Project to TNT Industrial Inc. in the amount of \$5,426,903.91, with a 10% contingency of \$542,690 for a total amount of \$5,969,593.91, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: None

4. Dr. Joe Waidhofer Drinking Water Treatment Plant – Engineering Services During Construction for Disinfection System Project Memo, 03/22/22

Manager Moody provided the Board with the Engineering Services during Construction for Disinfection System memo. District Engineer Evensen reported Carollo Engineers submitted a scope of services proposal for engineering and construction management services during construction services for \$800,046. District Engineer Evensen reported Staff proposes to combine forces with Carollo Engineers to manage the project construction; Carollo Engineers to provide engineering services during construction for the amount of \$349,886, plus a 10% contingency amount of \$34,989 for a total amount of \$384,875. District Engineer Evensen stated District Staff will provide the majority of the construction management services, including providing the construction manager, inspectors and contract administration. District Engineer Evensen provided the Board with a list of Engineering Services that would be provided by Carollo Engineers; the list includes: team coordination, progress status reports, pre-construction conference, design engineer site visits, submittal review, response to contractor's request for information, preparation of design clarifications, structural special inspections, record drawings, training and commissioning.

Director McGurk inquired on the ability to save money should TNT Construction Inc. have an idea for a way to save on funds. Manager Moody replied the District has done it recently with a project involving valving and piping on the new storage basin on the north property; the construction company we worked with was able to do horse trading with us to save District funds. Director McGurk inquired if the contract allows for those types of horse-trading options to occur. Manager Moody replied yes, we have the capability. District Engineer Evensen replied the District will have options when it comes to material used; with the inflation of prices, District

Management will have options to choose which materials would work best with the budget. Manager Moody replied this project is simplistic as the main components, like the metal building, skid-mounted chemical pumps, and chemical storage tanks are vendor designed as a package and just need to be installed.

A motion was moved and seconded to authorize the General Manager to execute a Professional Services Agreement with Carollo Engineers for the proposed cost of \$349,886, plus a 10% contingency amount of \$34,989, for a total of \$384,875, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: None

5. Dr. Joe Waidhofer Drinking Water Treatment Plant – PLC and SCADA Integration Services for Disinfection System Project Memo, 03/22/22

Manager Moody provided the Board with the PLC and SCADA Integration Services for Disinfection System Project memo. District Engineer Evensen reported the District's PLC and SCADA integrator, ControlPoint Engineering submitted a scope of services proposal for PLC and SCADA integration during construction for \$242,640, plus a 10% contingency amount of \$24,264 for a total amount of \$266,904.

A motion was moved and seconded to authorize the General Manager to execute a Professional Services Agreement with ControlPoint Engineering for the proposed cost of \$242,640, plus a 10% contingency amount of \$24,264, for a total of \$266,904, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: None

6. 2022 Landscape Bid Results and Award Memo, 03/22/22

Manager Moody provided the Board with the 2022 Landscape Bid Results and Award memo. Manager Moody reported discussion with the Board about landscaping ideas and what could be done differently and the Board consensus was to enlist Director Panizza's expertise. Manager Moody reported Director Panizza and Assistant Manager Hopkins worked together to complete the 2022 Landscape Services Request for Bid. Manager Moody reported Director Panizza had insight to assist with the bid writing process and determined sections of the bid that were not necessary for a landscaping company. Assistant Manager Hopkins reported the Request for Bid was advertised along with Staff contacting companies that had previously performed work for the District or expressed interest; the District received four responsible and responsive bids. Assistant Manager Hopkins reported Valley Landscaping & Maintenance Inc., the current landscaping company provided the lowest bid of \$29,400; the bid rate reflects a \$50 monthly increase from the District's current rate. Assistant Manager Hopkins stated the bid from Valley Landscaping is a great value in comparison to the other bids provided; Valley Landscaping confirmed the contract document and agreed to perform the specifications listed in the bid. Assistant Manager Hopkins recommend the Board authorize the General Manager to award a contract to Valley Landscaping & Maintenance, Inc. in the amount of \$29,400, plus a 10% contingency amount of \$2,940 for a total amount of \$32,340.

Manager Moody stated Valley Landscaping provided a bid last year much higher than the current bid amount due to the previous request for bid requirements of high insurance limits and other factors of that nature. Director Panizza stated the items eliminated from the current Request for Bid was a requirement to carry insurance for years following the services completed and taking out some shrubbery maintenance.

Director Atkins inquired why there would be a large bid difference between Valley Landscaping and the others that bid. Manager Moody replied the District required prevailing wage and perhaps the other bidders are not familiar with those requirements. Manager Moody added the number of trees, flowers and vegetation at the District is beautiful but a lot of work to maintain. Discussion followed regarding landscaping services.

A motion was moved and seconded to award the 2022 Landscape Services Bid to Valley Landscaping for an annual contract amount of \$29,400, plus a 10% contingency amount of \$2,940 for a total approved amount of \$32,340, beginning April 1, 2022 to March 31, 2023, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins
Nays: None
Abstain: None
Absent: None

E. COMMITTEE REPORTS

1. San Joaquin County & Delta Water Quality Coalition Meeting, 03/14/22

Director Atkins attended the March 14, 2022 San Joaquin County & Delta Water Quality Coalition Meeting. Director Atkins reported the Coalition financials are status quo with the exception of the Regional Water Quality Control Board plans to increase their rates by 5%; funds are still available and rates will stay the same this year. Director Atkins reported discussion regarding membership dues that have not paid; the agencies that have not paid run the risk of being removed from the Coalition if they do not pay their membership dues. Director Atkins added there have been reminder letters sent to inform the unpaid agencies; the unpaid agencies' names will be given to the State Water Resources Control Board. Director Atkins reported discussion regarding the Program Manager's Report; a sample over the limit with concerns of algae toxicity. Director Atkins added a farmer made the comment that the islands are not farmed the way they used to be; the movement of water is not the same. Director Sanguinetti inquired when the sample was taken. Director Atkins replied the sample was taken a couple months ago. Discussion followed regarding location and quality of the water sample. The next meeting is scheduled for April 11, 2022.

2. Eastern San Joaquin Groundwater Authority Technical Advisory Committee (TAC) Meeting, 03/17/22

President Watkins and Manager Moody attended the March 17, 2022 Eastern San Joaquin Groundwater Authority Technical Advisory Committee (TAC) Meeting. Manager Moody reported discussion primarily focused on the comments from DWR and how the Committee will respond to the comments. Manager Moody reported DWR was not satisfied that the Groundwater Sustainability Plan did not address domestic wells; discussion followed regarding working with DWR and not creating waves and others expressed wanting to push back as legislation does not authorize regulation on domestic wells. Manager Moody stated the Committee is meeting every

two weeks and the Legal Committee is also meeting frequently in an effort to respond to DWR's comments. Director McGurk inquired about the domestic wells and if they are focused primarily in one Groundwater Sustainability Agency. Manager Moody replied no, generally in the Basin if there is a chronic lowering of groundwater and domestic wells go dry or have water quality issues, what will the Groundwater Sustainability Agencies do to address those issues. The next meeting is scheduled for March 31, 2022.

3. Agricultural Operations Committee Meeting, 03/18/22

Directors Atkins, Cortopassi, Sanguinetti and Watkins attended the March 18, 2022 Agricultural Operations Committee Meeting. Director Cortopassi reported discussion to set the 2022 Water Rates; the Groundwater Rate will be \$5.79 per acre-foot, Surface Water Rate will be \$23 per acre-foot and Domestic Unit Charge will be \$49 per acre-foot. Manager Moody reported the Public Notice will be published on Friday, March 25th and the Public Hearing will be held on Tuesday, April 5th at the Regular Board Meeting; the Committee will then make a recommendation to the Board to approve the 2022 Water Rates. Director McGurk inquired about the New Hogan component cost and if it is less than \$5.79 per acre-foot. President Watkins replied with the suggested rates, we would have a balanced budget.

4. Bellota Project Committee Meeting, 03/18/22

Directors Atkins, Cortopassi, Sanguinetti and Watkins attended the March 18, 2022 Bellota Project Committee Meeting. Assistant Manager Hopkins reported a presentation was given by KSN on the Bellota Project 90% Design. Assistant Manager Hopkins reported the next step will be meeting with the fish agencies for their approval of the 90% design. Manager Moody added after the meeting with the fishery agencies and their approval, the Bellota Project will be brought to the Board to see the design, cost and plans for the project. Director Atkins inquired if the design changes will be brought back to the Committee. Assistant Manager Hopkins replied yes, there will be a design review at 100%. Director Cortopassi inquired at what point will the District seek out funding for the project. Manager Moody replied the District has already applied for grants; one matching design grant for \$3 million and another grant application was submitted for \$14 million.

F. REPORT OF GENERAL MANAGER

1. Water Supply Report as of 03/21/22

Manager Moody provided a handout of the Water Supply Report for information only that included storage, release, and production data collected from various sources as of midnight last night.

There is 132,039 AF in storage at New Hogan Reservoir. Current releases are set at 28 cfs. Current release at Goodwin Dam to Stanislaus River are set at 1,229 cfs and release to all water users are set at 45 cfs. The water treatment plant is currently processing 30 mgd. The City of Stockton is currently processing 13 mgd.

2. Information Items:

Manager Moody noted item: F2a-1 and F2a-2.

3. Report on General Manager Activities

- a. Stockton East Water District Activities Update
Manager Moody reported a Time Variance Request was sent to the Central Valley Flood Protection Board requesting early installation of dams; due to District project schedules, the earliest date for installation of dams is April 11, 2022. This item was for information only.

G. DIRECTOR REPORTS

1. Stockton East Water District Special Board Meeting – Department Of Water Resources Deputy Director Paul Gosselin Tour, 03/18/22
Directors Atkins, Cortopassi, McGurk, Sanguinetti and Watkins attended the March 18, 2022 Stockton East Water District Special Board Meeting – Department Of Water Resources Deputy Director Paul Gosselin Tour. Director Cortopassi commended Manager Moody on a wonderful presentation compacting concise information highlighting the District’s efforts toward Groundwater Sustainability. Manager Moody commented the information was equally important to share with the Department of Water Resources and the other agencies in attendance. President Watkins reported the Special Meeting began with a welcome by Supervisor Winn, San Joaquin County Board of Supervisors, followed by remarks from Kris Balaji, San Joaquin County Director of Public Works, followed by remarks from Paul Gosselin, Department of Water Resources Deputy Director and ended with a presentation from Manager Moody. Manager Moody credited Assistant Manager Hopkins with putting together the presentation. Director Sanguinetti reported discussion regarding 100 years of water law. Manager Moody reported Paul Gosselin commented he was pleased that our Basin only had one Groundwater Sustainability Plan where others have multiple plans.

H. COMMUNICATIONS (None)

I. AGENDA PLANNING/UPCOMING EVENTS

1. ACWA Groundwater Sub-Committee Meeting, 2:00 p.m., 03/22/22
2. San Joaquin Farm Bureau Federation Meeting, 5:30 p.m., 03/22/22

J. REPORT OF THE COUNSEL

1. Closed Session - Potential Litigation
Government Code 54956.9 (c) – two cases

President Watkins adjourned the meeting to closed session at 1:12 p.m. to discuss closed session agenda items. The regular meeting reconvened at 1:35 p.m., with no reportable action.

K. ADJOURNMENT

President Watkins adjourned the meeting at 1:36 p.m.

Respectfully submitted,

Scot A. Moody
Secretary of the Board

**San Joaquin Farm Bureau Federation's
2022-2023 Linden Farm Center Nominees**

Member Name: Stockton East Water District

Member Number: 093124

PLEASE VOTE FOR FIVE DIRECTORS:

Linden

- Nick Ferrari, Chair
- James Chinchiolo
- Donald Drake
- Jim Ferrari
- Steve Galvin

- I, a voting member of the Linden Farm Center, approve all nominees as presented.
- I, a voting member of the Linden Farm Center, approve the nominations with the following amendments. **See Below*

Write-In Nominations Additional Space

Please indicate the name and position that you are nominating the individual for (i.e. director at large).

Please return to the SJFB office via fax, (209)931-1433, email, director@sjfb.org or mail the return envelope that must be postmarked by Friday, April 22nd.

Do We Have Your Current Contact Information?

To make sure you stay up-to-date with SJFB, please confirm the information we have for you below.

DBA/Primary Contact: Mr. Scot Moody

Email: smoody@sewd.net

Phone Number: (209) 948-0333

Agenda

Groundwater Quality Subcommittee, ACWA Groundwater Committee

2-3 pm, March 22, 2022

1. Introductions
2. Discussion of DWR's review comments on draft Groundwater Sustainability Plans with respect to water quality
 - a. We will review selected DWR comments on GSPs regarding the SGMA undesirable result: "Significant and unreasonable degraded water quality, including the migration of contaminant plumes that impair water supplies."
 - i. Cuyama Valley Basin GSP – see text in attached DWR review, beginning on page 18 of 23 in the attached .pdf – 'DEFICIENCY 3. THE GSP DOES NOT FULLY ADDRESS DEGRADED WATER QUALITY'
 - ii. Tulare Lake Subbasin GSP – see text in attached DWR review, beginning on page 20 of 23 in the attached .pdf - 'DEFICIENCY 3. THE GSP DOES NOT IDENTIFY SUSTAINABLE MANAGEMENT CRITERIA FOR DEGRADED WATER QUALITY'
 - iii. Westside Subbasin GSP – see text in attached DWR review, beginning on page 23 of 27 in the attached .pdf – 'DEFICIENCY 3. THE GSP DOES NOT PROVIDE ADEQUATE INFORMATION TO SUPPORT THE SELECTION OF DEGRADED WATER QUALITY SUSTAINABLE MANAGEMENT CRITERIA'
3. Discussion of State Water Board Prioritization of Drinking Water Regulations Development for Calendar Year 2022
 - a. Review and Discuss item presented at SWRCB March 1, 2022 meeting (see attachment)
4. Other

Water Advisory Committee
San Joaquin Farm Bureau Federation
March 22, 2022, 5pm via Zoom

<https://us02web.zoom.us/j/82091488459?pwd=Y2RzYW94alk1OEkxVERucXJyTnAzOT09>

Meeting ID: 820 9148 8459 Passcode: 32222

Meeting Agenda

1. CALL TO ORDER
2. APPROVAL OF MINUTES: February 22, 2022 (Attachment 1)
3. DISTRICT REPORTS:
 - a) East Bay Municipal Utility District (EBMUD)
 - b) North San Joaquin Water Conservation District (NSJWCD)
 - c) Central Delta
 - d) South Delta
 - e) RD's
 - f) Woodbridge Irrigation District (WID)
 - g) Stockton East Water District (SEWD)
 - h) Oakdale Irrigation District (OID)
 - i) South San Joaquin Irrigation District (SSJID)
 - j) Banta-Carbona
 - k) San Joaquin County & Delta Water Quality Coalition (SJCDWQC) (Attachment 2)
 - l) San Joaquin County (SJC)
 - m) Delta Caucus
 - n) CFBF
4. OLD BUSINESS:
 - a. Water Management Project- CFBF policy (Attachment 3)
 - b. Water Committee Contest (Attachment 4)
5. NEW BUSINESS:
 - a. Stockton East – Rate Cap
6. ANNOUNCEMENTS/OTHER BUSINESS
 - a. Hot Topics for future meetings?

Next meeting: April 26, 2022

Re: Stockton East Water District/Treatment Plant Scheduling of Water

Gentlemen:

The United States Bureau of Reclamation (USBR) recently notified Stockton East Water District that it had changed the way in which it determines the water allocation for the Eastside Contractors in each given year. SEWD has made it clear to USBR that it does not agree with these changes and discussions are ongoing. **That said, the USBR has yet to allocate any water to SEWD this year from New Melones Reservoir, and it is likely that there will be no water available.**

As it has done in previous dry years, Stockton East will undertake all actions to make a full supply of water available to the Urban Contractors from the water treatment plant. Stockton East has contracted with Oakdale Irrigation District and South San Joaquin Irrigation District to purchase up to 20,000 acre feet of water through the end of June, and we began taking these supplies in in March. This purchase will go a long way in stretching our New Hogan and other supplies.

In addition, on July 1 Stockton East will begin pumping banked surface water to supply to the treatment plant, in combination with New Hogan supplies. This action will enable Stockton East to provide a full supply of water to meet the demand on the treatment plant while reserving precious New Hogan supplies in case next year remains dry.

The purpose of this letter is to meet the requirements of Section 10 of the Second Amended Contract, which provides:

March 22, 2022

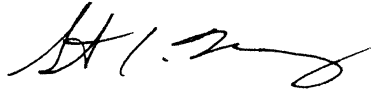

Page 2 of 2

10. Scheduling of Water: From time to time as is necessary and convenient, and at least once a year during the month of March representatives of the Contractors and Stockton East shall meet and confer as to available raw water and the scheduling of the delivery of treated water to the Contractors.

....

Pursuant to the contract, we anticipate that our contractors will accept all available supplies from the treatment plant, and we will work with each of you to develop schedules for use of these available supplies. If you would like to meet to discuss any matter discussed in this letter, please let me know.

Very truly yours,

Scot A. Moody
General Manager

PREPARE FOR MORE DROUGHT IMPACTS DUE TO ONGOING DRY CONDITIONS

Despite record-breaking storms in October and December 2021, most of California is experiencing a severe drought due to the driest January and February on record. These conditions are worsening quickly and can threaten water supplies, impair critical habitat, reduce recreational opportunities, and create uncertainty for all water users.

Plan Ahead

As we head into a third dry year, it's important to plan for water supply shortages and identify actions you can take to conserve water and adapt to drought conditions, such as reducing irrigated acreage, using innovative irrigation techniques, managing herd size, or diversifying your water supply portfolio. Your early efforts can help minimize the potential impact of water management actions on businesses, homes, farms, and California's environment.

Report Water Use

The Division of Water Rights needs accurate and timely data to manage California's water and keep diverters informed, particularly when water supplies are limited. Now more than ever, it is vital that you report your water diversion and use data on time. All diverters must report their annual water use by April 1, 2022. Many diverters are also required to report diversion metering and measuring data by this deadline.

Accurately reporting your water use and diversion data on time fulfills your legal obligation and allows the Division of Water Rights to better manage the state's water rights system, protect lawful diversions, and more precisely curtail when needed. Better reporting by all diverters is the cornerstone of a modern water rights system.

Dry Conditions

We are experiencing historic dry conditions: February is usually California's wettest month, but January and February 2022 were the driest we've seen in recorded history. Statewide, precipitation is less than half the yearly average, and dry conditions are forecast to continue through spring.

E. JOAQUIN ESQUIVEL, CHAIR | EILEEN SOBECK, EXECUTIVE DIRECTOR

Last year, extreme drought conditions led to unprecedented actions by the State Water Board that included curtailment of water rights in many California watersheds.

The Division of Water Rights is preparing similar actions for 2022, and we plan to ask the State Water Board to consider emergency regulations to curtail water rights in certain watersheds if dry conditions continue or worsen. If you are in the Bay-Delta, Russian River, Scott River, Shasta River, Mill Creek, or Deer Creek watersheds, you should prepare for earlier curtailments.

We are monitoring the situation closely and will engage with water users as we know more. We encourage you to collaborate with your community to develop cooperative water management solutions that meet both local and state-level needs. Drought resources are included below:

Drought Resources

State Water Board Drought Information

Information and updates on Division of Water Rights drought activities, including emergency regulations, curtailment updates, and regional drought responses are available at waterboards.ca.gov/drought.

Emergency Drinking Water Assistance

Help is available if you are having trouble getting water in your home or your drinking water well has gone dry. Information about programs in your area are available at waterboards.ca.gov/drought/drought_assistance.

Drought Funding Programs

The state offers a variety of funding programs to help Californians during drought. Information is available at waterboards.ca.gov/drought/funding_available.

Annual Water Use Reporting

Water diverters must report their annual water use each year. Requirements and details on how to report are available at bit.ly/AnnualWaterReport.

Measuring and Metering Requirements

Many water right diverters are required to report measuring and metering data each year. Guidance on these requirements is available at bit.ly/WaterMeasurement.
