4. Stockton East Water District – Old Calaveras River Head Works Slide Gate Replacements Memo, 09/27/22

Manager Hopkins provided the Board with a memo regarding the Old Calaveras River Head Works Slide Gate Replacements. Manager Hopkins reported two slide gates are used to control the flow of water into the Old Calaveras River and the other two slide gates are unused and inoperable. Manager Hopkins reported the two gates that are used during water season have corroded frames, leaks in the

seated position and are at the end of their useful life. Manager Hopkins reported District Staff received three vendor quotes to replace only the two slide gates that are currently used; Rodney Hunt provided the most cost and time effective quote for two slide gates with electric actuators. Manager Hopkins recommended the Board approve the purchase of two of Rodney Hunt OCR HW slide gates and electric actuators in the amount of \$61,418, plus a 10% contingency for a total approved purchase amount of \$67,560.

President Watkins inquired if all four gates should be replaced. Manager Hopkins replied District Staff only budgeted for the replacement of two slide gates but the other two could be budgeted for another year.

Director McGurk inquired if the slide gates would be used as part of the Bellota Fish Screen Project. Manager Hopkins replied no, the design does not include the Old Calaveras River Head Works location for fish passage.

Director Atkins inquired if the two gates can operate the max flow amount of 300 cfs. Manager Hopkins replied yes.

President Watkins inquired if the slide gates will be replaced before irrigation season begins next year. Manager Hopkins replied yes.

A motion was moved and seconded to authorize purchase of Rodney Hunt OCR HW slide gates and electric actuators in the amount of \$61,418, plus a 10% contingency for a total approved purchase amount of \$67,560, as presented.

E. COMMITTEE REPORTS (None)

F. REPORT OF GENERAL MANAGER

1. Water Supply Report as of 09/26/22

Manager Hopkins provided a handout of the Water Supply Report for information only that included storage, release, and production data collected from various sources as of midnight last night.

There is 57,680 AF in storage at New Hogan Reservoir. Current releases are set at 220 cfs. Current release at Goodwin Dam to Stanislaus River are set at 155 cfs and release to all water users are set at 0 cfs. There are 14 irrigators on New Hogan, 0 irrigators on New Melones, and 0 irrigators out of District. The water treatment plant is currently processing 30 mgd. The City of Stockton is currently processing 23 mgd. Manager Hopkins reported the District wells total water extraction is 3,727 gpm (~5.4 mgd).

Manager Hopkins reported in preparation for the Bellota Weir removal, we are working with the Urban Contractors to lessen the demand from the Treatment Plant to fill our ponds as we will have to only use storage for a few days as the Bellota Weir is replaced next week. Manager Hopkins reported Extraction Well #1 has been turned off until the process is complete.

2. Information Items:

Manager Hopkins noted item: F2a-1, F2a-2, F2a-3 and F2a-4.

3. Report on General Manager Activities

a. San Joaquin County Office of Emergency Services – Agricultural Drought Task Force Meeting, 09/21/22

Assistant Manager Vega attended the September 21, 2022 San Joaquin County Office of Emergency Services – Agricultural Drought Task Force Meeting. Assistant Manager Vega reported discussion regarding long-term forecast with 91% chance of La Nina through December 2022 and a 54% chance from January 2023 to March 2023. Assistant Manager Vega stated the reports are projections. Director McGurk inquired when there will be an update on the projections. Assistant Manager Vega replied the Agricultural Drought Task Force meets monthly and another update will likely be given then. The next meeting is scheduled for October 19, 2022.

b. Stockton East Water District Activities Update

Manager Hopkins reported he attended the September 21, 2022 Stanislaus Watershed Team Meeting. Manager Hopkins reported discussion regarding pulse flows for the San Joaquin River between October 11, 2022 and November 1, 2022. Manager Hopkins inquired with Legal Counsel Zolezzi why the Stanislaus River provides three pulse flows, the Tuolumne River provides two pulse flows and the Merced River provides one pulse flow. Legal Counsel Zolezzi replied the Stanislaus River is regulated by the State Board and has historically provided the most pulse flows. This item was for information only.

Manager Hopkins reported District Staff attended Fire Extinguisher Training on Friday, September 23, 2022. This item was for information only.

Manager Hopkins reported Assistant General Manager interviews were conducted with four applicants interviewed. A unanimous decision was made naming Juan Vega as the new Assistant General Manager. The Board congratulated Assistant Manager Vega on his appointment to

Assistant General Manager. Assistant Manager Vega stated he is very excited for the opportunity. This item was for information only.

Memorandum

To: Board of Directors
From: Justin Hopkins – General Manager
Juan Vega – Assistant General Manager
Darrel Evensen – District Engineer
Date: 10/4/2022
Re: USACE Memorandum of Agreement Section 214

Background

The US Army Corps of Engineers (USACE) Section 408 program allows another party such as Stockton East Water District (District) to alter a USACE Civil Works project. In recent years, the District has struggled to obtain approval from the USACE for projects requiring USACE 408 permitting. For example, the District has waited almost two years for approval for the Hosie Low Water Crossing permit even though the design work was prepared by the California Department of Water Resources (DWR). The main cause for the delays according to the USACE is lack of funding from the Federal Government, specifically on Section 408 permitting project reviews.

Staff has repeatedly appealed to the USACE to review and approve our permits to no avail. In light of the lack of progress, staff has explored other avenues of resolution. Staff is aware that DWR and other entities have entered into a Section 214 Memorandum of Agreement with the USACE to provide permit review funding for specific projects. These projects receive the highest priority and continue to be reviewed when federal funding is not available. If this direction is deemed viable and is approved by our District Board, the District would enter into a Memorandum of Agreement with the USACE and provide specific project names and amounts of money to cover the USACE review process.

Summary

Staff has the following projects budgeted and planned on the Mormon Slough that anticipates being held up indefinitely under the current USACE position on Section 408 permits:

1. Hosie Low Water Crossing
2. George Watkins Low Water Crossing
3. Hogan Low Water Crossing
4. Fujinaka Low Water Crossing
5. Potter Creek Pump Station Upgrade
6. Prato Dam Replacement
7. Panella Dam Replacement
8. McGurk Low Water Crossing

Financial Impact

Under staff's proposal, an estimated \$100,000 would be set aside for payment of USACE review time for projects one through four listed above. The funding would be provided by the individual project budgets, which are currently funded by a DWR grant.

Next Steps

Pending Board feedback, the General Manager and Legal Counsel will develop a Memorandum of Agreement for USACE review. Upon approval of the draft Memorandum of Agreement by the USACE, staff will present the Memorandum of Agreement to the Board for approval.
