# Memorandum

**To:** Board of Directors  
**From:** Justin M. Hopkins, General Manager  
Juan Vega, Finance Director  
**Date:** August 16, 2022  
**Re:** Schedule for Preliminary BMP Adoption – FY2023-2024

---

Per the Second Amended Contract, the District shall announce a new Preliminary Base Monthly Payment on or before the first day of October for the fiscal year after the succeeding fiscal year.

We propose the following timetable for computing and processing the preliminary Basement Monthly Payments (BMP) for Fiscal Year 2023-2024. This timetable will ensure the timely adoption of the Preliminary BMP.

<b><u>Date:</u></b>	<b><u>Activity:</u></b>

To: Eastern San Joaquin Subbasin Groundwater Sustainability Agencies:

**SUBJECT: SOLICITATION FOR PARTNERS TO DEVELOP WATER RIGHT  
APPLICATION 29835**

The Mokelumne River Water and Power Authority (MRWPA), a Joint Powers Authority composed of the County and the County Flood Control and Water Conservation District, applied for Mokelumne River water rights under Application 29835 (Application), which was originally filed in 1990 and amended four times. As part of the State Water Resources Control Board (SWRCB) process, the MRWPA submitted a work plan in 2014 to further develop the water right. The MWRPA must demonstrate due diligence to perfect the water right and obtain a permit from the SWRCB, or it risks having the application denied or cancelled. The SWRCB recently denied the County filing on the American River in July 2022, so it is critical to prioritize efforts to protect the Mokelumne River filing. Very little work has been completed on the Application due to a lack of funding and inability to secure local partners.

To support securing the water right permit and implement elements of the Eastern San Joaquin Groundwater Sustainability Plan (GSP), the County developed a work plan for the "Eastern San Joaquin Geophysical Investigations and Groundwater Recharge Program" (Program) and submitted this as part of the Eastern San Joaquin Groundwater Authority (GWA) SGMA GSP Implementation Grant application to the Department of Water Resources (DWR). DWR awarded the grant for work that includes planning and designing the project(s) to make use of Mokelumne River water. The MRWPA has identified the key steps necessary to complete work under the grant, perfect the Application and obtain the SWRCB water right permit, and the Program work plan will accomplish some of those steps.

The MRWPA is moving forward to formulate, screen, and develop projects and programs to put the water to beneficial use. In addition to making use of Application water, we believe that any project that is developed should also consider accommodating potential partners that may need help in putting their independent water rights to beneficial use. Existing projects facilities could be expanded, or new facilities could be developed. Much, but not all of the needed work,

will be supported by the SGMA Implementation grant. Consequently, the County is seeking partnerships and funding agreements to support the effort.

Work to be completed and perfect the water right permit under the Application entails near-term and subsequent planning, engineering, and environmental work to complete the design and necessary environmental documentation to comply with all state and federal requirements. The goal is to build capital projects to put the water to beneficial use, and in turn reduce overdraft, help achieve groundwater sustainability, and increase water supply resiliency with respect to drought and climate change. The total cost of performing this work is estimated to be \$6 to \$8 million. Development of the water right is dependent on the MRWPA's ability to rally local and regional support, form partnerships, and secure adequate funding to get needed projects permitted and built.

The MRWPA is soliciting letters of interest from potential partners interested in participating in the first step of the water right development process, which is to update the Water Availability Analysis (WAA) consistent with SWRCB requirements. The WAA is needed to confirm the amount of water available for appropriation and provide the basis of design to size water delivery infrastructure and recharge operations.

We would like to meet with GWA Groundwater Sustainability Agencies that are interested in partnering and are proposing a meeting on Friday, August 19, 2022, from 8:30 to 10:30 AM at the Public Works office at 1810 East Hazelton Avenue, Stockton, CA, conference room A. We will cover the project background, current grant scope, potential projects, near term investments and cost sharing. If you have questions or would like additional information, please contact Matt Zidar, Water Resources Manager, at (209) 953-7460.

Sincerely,

Fritz Buchman, C.E., T.E., CFM

Justin Hopkins  
Stockton East Water District  
P.O. Box 5157  
Stockton, CA 95205

Dear Mr. Hopkins:

Thank you for your contribution to the California Farm Water Coalition for your 2022 membership. It is your generous support that makes it possible for us to tell consumers about the importance of farm water in their everyday lives.

While our past activities have been successful, we recognize the importance of continuing our efforts to provide fact-based information to the public and are expanding our communication channels via the latest social media outlets throughout California.

Hopefully you have been following our activities daily on social media, in our electronic News Line, and our newsletter, Water Wire. If you aren't receiving these in our e-mail format, please send your e-mail address to [farmwater@farmwater.org](mailto:farmwater@farmwater.org) or call our office at (916) 391-5030. These are two great ways to stay up-to-date on farm water issues, and are free with your Coalition membership. We assure that your e-mail address will remain confidential because we never share your information

We are continuing our work to ensure the public and elected leaders have accurate, factual information about California's farms and the food and fiber they produce.

If you have any questions about our programs or activities this past year, or if you would like to discuss what we have in store for 2022, please feel free to call me at (916) 391-5030.

Sincerely,

Mike Wade  
Executive Director
