3. Stockton East Water District – Proposition 1 Restoration Grant Resolution Memo, 02/08/22

Manager Moody provided the Board with a memo regarding the Proposition 1 Grant Funding for the Bellota Fish Screen and Passage Improvement Project. Manager Moody reported Staff would like to submit a grant application for the California Department Fish and Wildlife (CDFW) Proposition 1 Restoration Grant; the Grant has approximately \$31 million of available funding for various habitat restoration projects. Manager Moody stated the Project is multi-phased and expensive and funding for Phase 1 would show commitment to the Fishery Agencies which would hopefully encourage support for larger grants in the future.

President Watkins inquired on the scope of work for Phase 1. Manager Moody replied Phase 1 includes ramp installation, demolition of the existing weir structure and adding the pipeline and foundation.

Director McGurk inquired if there is an option for local grant funding opportunities. Manager Moody replied this is the only grant for funding at this time. Assistant Manager Hopkins stated the District is presenting a 90/10 percent cost share which would cover ~\$14 million of the ~\$16 million cost of Phase 1; the estimated amount was calculated as an opinion of probable construction cost. Assistant Manager Hopkins added the District may negotiate with the CDFW to a 50/50 percent cost share if award limitations are presented.

President Watkins inquired about the pilings under the pipes. Assistant Manager Hopkins replied they are included in the cost estimate. President Watkins inquired if the design has been finalized. Assistant Manager Hopkins replied no, Staff received the 90% design yesterday and is planning to take a field trip to the Alameda County facility.

Consultant Barkett inquired how long after Phase 1 could the District wait to continue on to Phase 2. Manager Moody replied as long as necessary. Consultant Barkett inquired if the District would consider doing a Request for Qualifications (RFQ) to obtain value engineering in order to gain a more accurate construction cost estimate. Manager Moody replied it is a possibility but not in time to submit for the grant. Consultant Barkett inquired if it could be done for the whole Project. Manager Moody replied yes.

Director McGurk inquired if there is a gradual slope on the apron for the fish. Assistant Manager Hopkins replied it is part of Phase 1 which includes a roughened channel.

Assistant Manager Hopkins recommended the Board approve an Addendum to the Professional Services Agreement with Kennedy Jenks for additional grant writing services specific to the Bellota Fish Screen and Passage Improvement Project, Phase 1.

A motion was moved and seconded to approve the recommendation from staff; and authorize the General Manager to approve the addendum to a Professional Services Agreement with Kennedy Jenks for additional grant writing services specific to the Bellota Fish Screen and Passage Improvement Project for \$17,739 plus a 10% contingency for a total amount of \$19,513, as presented.

## **E. COMMITTEE REPORTS**

1. Eastern San Joaquin Groundwater Authority Ad-Hoc Technical Advisory Committee (TAC) Meeting, 02/03/22  
President Watkins and Manager Moody attended the February 3, 2022 Eastern San Joaquin Groundwater Authority Ad-Hoc Technical Advisory Committee (TAC) Meeting. Manager Moody reported the Accountability Framework Model is being executed by Woodard & Curran. Manager Moody reported discussion regarding a response to Department of Water Resources (DWR); the official comments must be submitted within 180 days however the attorney group will be drafting a response in order to avoid any issues due to a current pending lawsuit. Manager Moody reported the attorneys and a few districts participated in a call to create a process to submit to the GWA Board. Manager Moody stated the comments to DWR have to sufficiently explain our Groundwater Sustainability Plan in the correct verbiage in order for DWR to approve the GSP. President Watkins reported the deficit is now being reported at ~16,000 acre-feet on average. President Watkins reported prior to Woodard & Curran executing the model, Davids was hired to execute the contact; an email was sent to explain there was trouble collecting the scope, schedule, budget and deliverables established during the negotiations with Davids. President Watkins reported Woodard & Curran was paid ~\$50,000 in December 2021 to execute the model for Davids; the fund will have to discussed at the GWA Board level. Director Cortopassi inquired about the current lawsuit with the GSP. Legal Counsel Zolezzi replied the lawsuit was filed by CalSPA stating the GSP is inadequate. The next meeting is scheduled for March 3, 2022.

## United States Department of the Interior

BUREAU OF RECLAMATION  
P.O. Box 25007  
Denver, CO 80225-0007

IN REPLY REFER TO:

83-55000

2.2.4.23

Mr. Scott Moody, Manager  
Stockton-East Water District  
P.O. Box 5157  
6767 East Main Street  
Stockton, CA 95215

Subject: Exemption from the Ownership and Full-Cost Pricing Provisions of Federal Reclamation Law

Dear Mr. Moody:

This letter serves as official notification that Stockton East Water District (District) is exempt from the ownership and full-cost pricing provisions of Federal reclamation law.<sup>1</sup> The exemption remains in effect until the requirements of Federal reclamation law, including Section 203(a) of the Reclamation Reform Act of 1982 (RRA), dictate otherwise.

The Bureau of Reclamation, as mandated by Section 4011 of the Water Infrastructure Improvements for the Nation Act (Public Law No. 114-322; WIIN Act), has acted on the District's request to pre-pay and convert the District's water service contract. The District paid in full its applicable irrigation construction cost as specified in contract 4-07-20-W0329-P.

All follow-up actions are complete with respect to the final RRA water district review conducted by Reclamation. The RRA forms submittal requirements no longer apply to the District as a result of this exemption. Therefore, upon receipt of this letter, the District may discard all the landholder RRA forms in its files by burning, shredding, or pulping them in accordance with the Privacy Act of 1974 disposal requirements. This exemption does not relieve the District of any other existing or future obligations to the United States, and other contract provisions that remain relevant (such as water conservation provisions) are still in effect.

Congratulations to the District for completing repayment of its construction cost obligation to the United States and achieving exemption from the ownership and full-cost pricing provisions of Federal reclamation law.

---

<sup>1</sup> Section 213 of the Reclamation Reform Act of 1982 and Section 426.16 of the Acreage Limitation Rules and Regulations (43 CFR part 426) provide that land in a district is exempt from the ownership and full-cost pricing provisions of Federal reclamation law when a district has fully repaid its construction cost obligation in accordance with the terms of its repayment contract with the Bureau of Reclamation.

If you have any questions regarding this matter, please contact the RRA team member assigned to the California-Great Basin Region, Ms. Angela Munson, at (303) 445-2042 or [amunson@usbr.gov](mailto:amunson@usbr.gov). For the hearing impaired please call the Federal Relay System at (800) 877-8339 (TTY).

Sincerely,

**CHRISTOPHE
