THE REGULAR MEETING OF THE BOARD OF DIRECTORS
OF STOCKTON EAST WATER DISTRICT WAS HELD AT THE DISTRICT OFFICE
6767 EAST MAIN STREET, STOCKTON, CA
ON TUESDAY, APRIL 6, 2021 AT 12:30 P.M.

A. PLEDGE OF ALLEGIANCE AND ROLL CALL

President Watkins called the regular meeting to order at 12:30 p.m. Director McGurk led the Pledge of Allegiance.

Present at roll call at the District were Directors Atkins, Cortopassi and Sanguinetti. Also present were Manager Moody, Assistant Manager Hopkins, Finance Director Vega, Administrative Services Manager Carido and Administrative Assistant Curtis. Present at roll call via teleconference were Directors McGaughey, McGurk, Panizza and Watkins. Legal Counsel Zolezzi joined the teleconference at 12:34 p.m.

B. CONSENT CALENDAR (None)

C. PUBLIC COMMENT (None)

D. SCHEDULED PRESENTATIONS AND AGENDA ITEMS

1. Minutes 03/30/2021 – Regular Board Meeting

A motion was moved and seconded to approve the March 30, 2021 Regular Board Meeting Minutes, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins

Nayes: None

Abstain: None

Absent: None

2. Warrants – California Public Employees’ Retirement System

A motion was moved and seconded to approve the April 6, 2021 Warrants – California Public Employees’ Retirement System, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins

Nayes: None

Abstain: None

Absent: None

3. Stockton East Water District – 2021 Water Rates

a. Public Hearing

President Watkins opened the Public Hearing at 12:32 p.m., to receive comments on the 2021 Water Rates and their associated Ordinance and Rule.

The District circulated notice of this public hearing in The Stockton Record on March 27, 2021 and did not receive any comments.

Manager Moody reported the Agricultural Operations Committee reviewed the information as they do annually and made their recommendation to the Board. Ordinance No. 47, which is enclosed indicates the water rates agreed upon.

Director McGurk inquired if the language in Section 5 of Ordinance No. 47 can be changed to reflect that the charges will vary based on what fraction of the conveyance system is being utilized. Manager Moody replied that staff will modify to the Board's pleasure; however, this language is standard and used annually in the Water Rates Ordinances. Director McGurk replied that the language is satisfactory as it reads as this is consistent with previous Ordinances.

Seeing no public comment, President Watkins closed the Public Hearing at 12:36 p.m.

b. Ordinance No. 47

Manager Moody provided the Board with Ordinance No. 47 Establishing Municipal Groundwater Assessments, Agricultural Groundwater Assessments, Domestic Groundwater Assessments, Charges for Stream-Delivered Water and Charges for Out-of-District Water for Calendar Year 2021.

A motion was moved and seconded to adopt Ordinance No. 47 establishing municipal groundwater production assessment at \$344.95/AF (\$341.35/AF municipal groundwater rate equalization plus \$3.60/AF municipal groundwater assessment); agricultural groundwater assessment at \$5.53/AF; domestic unit assessment at \$46.50/domestic unit and agriculture surface water assessment at \$23.00/AF for Calendar Year 2021, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins
Nays: None
Abstain: None
Absent: None

c. Rule No. 173

Manager Moody provided the Board with Rule No. 173 Rate Equalization – Calendar Year 2021. Manager Moody reported the Board must annually adopt a Rule establishing the rate equalization.

A motion was moved and seconded to adopt Rule No. 173 Rate Equalization-Calendar Year 2021 in the amount of \$457.35/AF.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins
Nays: None
Abstain: None
Absent: None

4. Stockton East Water District – Disinfection – Design of Bulk Sodium Hypochlorite System Memo, 04/06/21

Manager Moody provided the Board with a memo on the Disinfection – Design of Bulk Sodium Hypochlorite System. Manager Moody reported Carollo Engineers (Carollo) has finished 15% design of the project and presented this to the Board on March 9th.

Manager Moody reported the District could go out to bid for completion of this design; however, Carollo's proposal for design completion in the amount of \$370,142 is under the \$410,000 budgeted amount.

Manager Moody reported that staff's recommendation is to award the project to Carollo Engineers for design completion.

Director Cortopassi inquired on the conversation during their presentation regarding relocating the hypochlorite building. Manager Moody advised the location and turnaround area for delivery drivers will all be discussed during the design process. There will also be multiple opportunities for Carollo to present their recommendations to the Board and take feedback.

Director Atkins inquired if the District does not have to send this out to bid as Carollo was the firm that started the design process. Manager Moody replied that the District is never required to go out to bid, we do however to ensure we are receiving the best product and the best price.

Director McGurk inquired if the Board will still have the ability to inquire on the process and have time to make changes if need be. Assistant Manager Hopkins replied that in this proposal there are 60% and 90% design periods in the process for staff and the Board to comment on and provide input. Once completely approved, Carollo will deliver plans at 100% to go out to bid for construction.

Manager Moody is requesting that the Board approve the staff recommendation to approve the Proposal from Carollo Engineers in the amount of \$370,142 and, authorize the General Manager to make all other approvals necessary for the work, up to the \$410,000 budgeted amount, which exceeds Carollo's proposal, but allows for change orders.

A motion was moved and seconded to procure the services of Carollo Engineers for the Design of the Bulk Sodium Hypochlorite System in the proposal amount of \$370,142 and authorize the General Manager to make all other approvals necessary for the work up to the budgeted amount of \$410,000, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: None

5. Central Valley Flood Protection Board – Time Variance Request Approval, 03/30/21

Manager Moody provided the Board with correspondence to the Central Valley Flood Protection Board (CVFPB) requesting early installation of the Bellota and Budiselich dams. Manager Moody reported the District was authorized to install dams early.

Manager Moody reported that after approval by CVFPB, staff had to reach out to FISHBIO as they are required to perform a biological assessment, per the Habitat Conservation Plan (HCP). The results of that assessment were sent to the California Department of Fish & Wildlife (CDFW) and they have since responded and advised the District they are okay to proceed with early installation. Staff is working on removing the 2-foot weir today.

President Watkins inquired if staff can provide information to irrigators that water will be flowing sooner than expected. Manager Moody replied staff will spread the word as best as they can.

Director Panizza inquired if the District has an email list for its irrigators. Manager Moody replied no, but this is something staff could work on for future correspondence. Director Panizza advised this is something he would like to be established.

Director Atkins inquired if staff works down the system after they install the dam at Bellota. Assistant Manager Hopkins replied staff will work down Mormon Slough and charge the system once all dams are installed on Mormon, then continue to work their way through other systems.

Director Atkins advised he has received calls from irrigators on the Calaveras inquiring on the status of water and if there will be a set date when they can expect water on their system. Assistant Manager Hopkins replied staff will work on narrowing down a date. Manager Moody added it would be roughly 3 weeks from now.

Director Cortopassi inquired if water will not be sent until all weirs are in place. Assistant Manager Hopkins replied yes, water is not released in each system until their dams are installed. Historically, staff has been able to jump around and install in different areas at different times; however, with the HCP, all dams have to be installed in a sequential order.

President Watkins thanked Manager Moody and staff for working so diligently and being able to have this requested and approved so quickly. Director Atkins concurred.

6. New Hogan Water O&M Costs

Manager Moody provided the Board with information on New Hogan Water O&M costs. Manager Moody reported that staff expected the rates to go down, however, that is not the case this year. The cost of water from New Hogan is \$40.77, which will be more than the Ag water rate from New Melones, which is \$39.64.

President Watkins inquired if the Tainter Gates should have been removed because it was a one-time cost. Manager Moody added that he was under the impression that the cost would be a 5-year price for the gates.

President Watkins inquired what is inclusive of the recreational costs. Manager Moody replied those costs are for things like boat ramps and outhouses.

Finance Director Vega reported that the description provided is not very helpful, but does include categories for which the costs are allocated.

President Watkins inquired what will be done with the excess money from the Tainter Gate line of the budget if that project is already complete. Finance Director Vega replied that his understanding is that the costs from that project were to be recovered over the following 5-year period. Manager Moody advised staff will attempt to get more information on the O&M costs.

Director McGurk inquired if staff overlaid the New Hogan information with New Melones. Manager Moody replied yes. Director McGurk replied this is good information to have moving forward to see how similar the prices are between the two.

Director Cortopassi commented that the New Hogan water rate of \$40.77 for metered water, the overall bill would still be ~\$14 million even if water was not taken, so the more water taken the cheaper it would be.

Director Cortopassi inquired what is inclusive of labor. Finance Director Vega replied anything that is not related to recreation is labor. Labor and Tainter Gates are the two biggest cost factors.

President Watkins requested staff gather more information on this topic to bring back to the Board.

E. COMMITTEE REPORTS

1. Eastern San Joaquin Groundwater Authority Ad-Hoc Technical Advisory Committee (TAC) Meeting, 04/01/21

Director Watkins and Manager Moody attended the April 1, 2021 Eastern San Joaquin Groundwater Authority Ad-Hoc Technical Advisory Committee (TAC) Meeting. Manager Moody reported there were only two items discussed during this meeting. There was discussion on the GWA 2021 Annual Report, of which, the draft has been sent to the DWR for consideration. There was also discussion on the USBR Applied Science Grant for lidar satellite imagery. Assistant Manager Hopkins drafted a letter to send to the GSAs to garner their support for this grant. The Deadline for letters of support is April 21st. The next meeting is scheduled for May 6, 2021.

F. REPORT OF GENERAL MANAGER

1. Water Supply Report as of 04/05/21

Manager Moody provided a handout of the Water Supply Report for information only that included storage, release, and production data collected from various sources as of midnight last night.

There is 152,444 AF in storage at New Hogan Reservoir. Current releases are set at 21 cfs. There is 1,530,293 AF in storage at New Melones Reservoir. Current release at Goodwin Dam to Stanislaus River are set at 404 cfs and release to all water users are set at 106 cfs. The water treatment plant is currently processing 26 mgd. The City of Stockton is currently processing 19 mgd.

2. Information Items:

Manager Moody noted items: F2a-1 and F2a-2.

Director McGaughey commented on F2a-1 inquiring if the District is part of ACWA's Coalition. Manager Moody replied yes.

Director Panizza commented on F2a-2 inquiring if there are other options of participating in the Sexual Harassment training if anyone is unable to attend on April 20th. Manager Moody replied yes, it can be setup online at any time. Director McGaughey commented she will be onsite to attend training.

3. Report on General Manager Activities

- a. Stockton East Water District Activities Update

Manager Moody provided the Board with handouts from ACWA urging agencies to oppose both AB 1434 and AB 377. AB 1434 would make changes to indoor water use efficiency standards and AB 377 which would overhaul the existing National Pollutant Discharge

Elimination System. Manager Moody wanted to make sure the Board is okay with submitting letters of opposition. Consensus of the Board was to move forward with letters of opposition for AB 1434 and AB 377.

G. DIRECTOR REPORTS (None)

H. COMMUNICATIONS (None)

I. AGENDA PLANNING/UPCOMING EVENTS

1. Eastern San Joaquin Groundwater Authority FloodMAR Virtual Workshop, 9:00 a.m., 04/08/21
2. ACWA State Legislative Committee Meeting, 10:00 a.m., 04/09/21
3. San Joaquin County & Delta Water Quality Coalition Meeting, 9:00 a.m., 04/12/21
4. Eastern Water Alliance Meeting, 1:00 p.m., 04/12/21

J. REPORT OF THE COUNSEL

1. Closed Session - Existing Litigation
Stockton East Water District vs. City of Stockton, et al.
Government Code 54956.9 (a)
2. Closed Session - Personnel
Government Code 54957

President Watkins adjourned the meeting to closed session at 1:11 p.m. to discuss closed session agenda items. The regular meeting reconvened at 1:37 p.m., with no reportable action.

K. ADJOURNMENT

President Watkins adjourned the meeting at 1:38 p.m.

Respectfully submitted,

Scot A. Moody
Secretary of the Board

tbc

THE SPECIAL MEETING OF THE BOARD OF DIRECTORS
OF STOCKTON EAST WATER DISTRICT WAS HELD AT THE DISTRICT OFFICE
6767 EAST MAIN STREET, STOCKTON, CA
ON THURSDAY, APRIL 8, 2021 AT 9:00 A.M.

A. PLEDGE OF ALLEGIANCE AND ROLL CALL

The special meeting came to order at 9:00 a.m.

Present at the District were Directors McGurk, Panizza and Watkins. Also present was Manager Moody. Present via teleconference was Director Atkins.

B. CONSENT CALENDAR (None)

C. PUBLIC COMMENT (None)

D. SCHEDULED PRESENTATIONS AND AGENDA ITEMS

1. Eastern San Joaquin Groundwater Authority FloodMAR Virtual Workshop
San Joaquin County provided a workshop on the Eastern San Joaquin Groundwater Authority FloodMAR.

Manager Moody was a panelist to offer the perspectives from the Groundwater Sustainability Agencies perspective.

E. REPORT OF THE COUNSEL (None)

The meeting concluded at 11:58 a.m.

F. ADJOURNMENT

President Watkins adjourned the meeting at 11:59 a.m.

Respectfully submitted,

Scot A. Moody
Secretary of the Board

tbc

Re: Funck Road Traveling Water Screens

INTRODUCTION

The New Melones conveyance system has several traveling water screen installations for water quality control. The screens periodically remove the debris and transport the debris to the top of the canal protecting the canal from moss, sticks, trash, and other water-carried debris, resulting in decreased total organic carbon in the treatment plant’s raw water and lower total trihalomethanes in the finished water. From the top of the canal, a conveyor system transports the debris to a pad where District personnel can collect and dispose of the debris properly as shown in Figure 1.

Figure 1 Traveling water screens and conveyor system at Copperopolis Road Gates

FUNCK ROAD GATES

Unlike the traveling water screen at the Copperopolis Road Gates, the Funck Road Gates have permanent screens that catch debris until water supply operators manually clean the debris using hand tools. Figure 2 shows the Funck Road Gates. In instances of heavy debris flows or if scheduled maintenance is delayed, the debris can stack up and cause the culvert to clog. Staff recognized the need for installation of a traveling water screens and conveyor system at the Funck Road Gates and requested the improvements in the budget.

Figure 2. Funck Road Gates Site

ACTIONS TO DATE

To date, staff obtained an electrical service from PG&E and installed new electric gate actuators. To complete the project, the screen equipment needs to be purchased, steel supports and concrete support and drainage pads need to be constructed and the screen equipment installed by a contractor at an estimated additional cost of \$121,668. If the District construction group were to complete the project, the estimated additional cost would be \$47,237.

Staff requested quotes from five (5) vendors for the screens and conveyor systems and received the following bids.

Vendor	Price
International Water Screens Co.	\$224,331.75
Cambridge	\$249,393.90
The Weld Group	\$266,936.63
Fairfield Service Company	\$314,976.44
Hydrolox	\$329,202.45

The lowest bid for the screens and conveyor system is \$224,331.75 from International Water Screens Co. The Fiscal Year 21/22 approved budget for the Funck Road Traveling Screens Project is \$346,000.

RECOMMENDATION

Staff recommends the Board authorize the General Manager to purchase the traveling screens and conveyor system from International Water Screens Co. (IWS) in the amount of \$224,331.75 plus a 5% contingency in the amount of \$11,216.59, for change orders, if necessary. IWS provided the most detailed quote including all the requirements requested in District’s specifications. The quote also showed a higher degree of understanding for the work involved with exclusions and detailed fees.

A RESOLUTION OF THE BOARD OF DIRECTORS OF
STOCKTON EAST WATER DISTRICT
AUTHORIZATION TO FILE A GRANT APPLICATION WITH THE
DEPARTMENT OF INTERIOR UNITED STATES BUREAU OF RECLAMATION
FOR THE WATERSMART: APPLIED SCIENCE GRANTS FOR FISCAL YEAR 2021 &
EXECUTE ANY REQUIRED DOCUMENTS AND PROVIDE DELEGATION OF
AUTHORITY

WHEREAS, the Board of Directors of the Stockton East Water District desires to file a grant application with the Department of the Interior United States Bureau of Reclamation for the WaterSMART: Applied Science Grants (Funding No. R21AS00289) for funding of the Eastside Groundwater Use Measurement Project; and

WHEREAS, the General Manager, Scot A. Moody of the Stockton East Water District is hereby authorized and directed to prepare the necessary data, conduct investigations, file such application and work with Reclamation to meet established deadlines for entering and executing a grant agreement with Department of the Interior United States Bureau of Reclamation; and

WHEREAS, the General Manager, Scot A. Moody of the Stockton East Water District has reviewed and supports the application submitted; and

WHEREAS, the General Manager, Scot A. Moody of the Stockton East Water District and his designee of the Stockton East Water District are hereby authorized and delegated to submit reports, request for cost reimbursement and conduct day-to-day business with Department of the Interior United States Bureau of Reclamation; and

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Stockton East Water District that the grant application be made to the Department of the Interior United States Bureau of Reclamation to obtain a WaterSMART: Applied Science Grant (Funding No. R21AS00289), to enter into an agreement to receive the grant, and commit the necessary matching funds.

PASSED AND ADOPTED at a regular meeting by the Board of Directors of the Stockton East Water District on the 13th day of April 2021 by the following vote of the members thereof:

- AYES:
- NAYES:
- ABSENT:

RE: Rate Stabilization Fund Report

Enclosed is the Rate Stabilization Fund Report for your agency including backup documentation. For those agencies that have a balance that exceeds the attachment point, a check for the amount over the attachment point is also enclosed. Approximately 195 members are receiving a check with this report. Total refunds approximate \$6.2 million.

The Rate Stabilization Fund was established in 1999 to help stabilize the fluctuating cycle of refunds and billings for prior policy years. In 2001, the Executive Committee authorized expanding the fund to include all pooled programs.

The report has several parts. It starts with the beginning balance, the amount on the books for each member before adjustments. The first adjustment is the Liability Program's 10/1/18-19 policy year deposit premium for actual payroll vs. estimated payroll. Afterwards, there are adjustments for the Liability, Property and Workers' Compensation programs. These program adjustments are Retrospective Premium Adjustments for prior policy years that still have open claims. Finally, if the resulting balance is negative by more than 40% (or positive by more than 70%) of the attachment point, the district is billed (refunded) for the difference.

Also enclosed in the back of the document is your agency Catastrophic Fund (CAT Fund) statement. This report discloses the activity in the CAT Fund for the both the liability and workers' compensation programs.

It should be noted that each agency's balance is maintained separately for both Rate Stabilization Fund and CAT Fund and not all agencies' balances change at the same rate.

If you have any questions regarding the Rate Stabilization Fund or any of the adjustments, please call (800) 231-5742 or e-mail me at ddebernardi@acwajpia.com.

CONGRATULATIONS!

April 1, 2021

Karna Harrigfeld
Stockton East Water District
6767 East Main Street
Stockton, CA 95215-1527

Dear Ms. Harrigfeld,

The CV-SALTS initiative is made possible by the members of the Central Valley Salinity Coalition (CVSC). CVSC and its members have completed the Salinity and Nitrate Management Plan (SNMP) and developed Basin Plan language in 2017 and 2018. On May 31, 2018, the Central Valley Regional Water Quality Control Board approved these amendments. On October 16, 2019, the State Board approved the Basin Plan Amendment, and on January 16, 2020, the Office of Administrative Law approved the amendment. These achievements culminate over ten years of concerted effort by forward thinking water quality leaders in the Central Valley.

CVSC continued support for developing management zones with Notices To Comply (NTC) received in March for Priority 1 areas. CVSC finalized the Prioritization and Optimization (P&O) Study workplan shortly after NTCs were received on January 5, 2021. The CVSC Board approved the final P&O Workplan and submitted it to the Regional Board for approval on January 15, 2021. Without your organization's funding support and participation, this accomplishment would not have been possible.

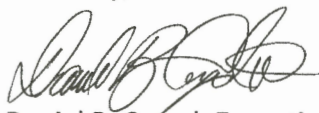

CVSC is supporting the implementation of the Basin Plan amendments throughout 2021. A payment portal was created on the website, and a P&O Fee database was developed with the Regional Board and members. The CVSC Board of Directors has reviewed and approved the 2021 budget and set annual dues at \$20,000.00 for 2021 renewals, about a 4% increase.

Your continued contribution is vital to the efforts to see the basin plan fully implemented to address salt and nitrate in a manner that works for permittees. CVSC members already see value from the CV-SALTS efforts in their permits and programs.

Attached is the 2021 invoice for your organization. The annual contribution to CVSC is invoiced and due during your anniversary month.

Please contact me if you have any questions.

Sincerely,

Daniel B. Cozad, Executive Director
Central Valley Salinity Coalition Inc.

VIRTUAL WORKSHOP

Learn about FloodMAR (Managed Aquifer Recharge) and other Conjunctive Use management approaches that may support implementation of the Eastern San Joaquin Groundwater Sustainability Plan (GSP).

This workshop is intended for Groundwater Sustainability Agencies (GSAs), landowners, growers, agriculture and business associations and other stakeholders who are interested in learning more about FloodMAR and conjunctive water use and how these approaches could help support groundwater sustainability.

The San Joaquin County Department of Public Works, in cooperation with the California Department of Water Resources (DWR), is hosting a virtual workshop to help participants gain a better understanding of conjunctive use strategies and provide an opportunity for interaction between GSAs, the ag industry, and other stakeholders.

The program includes guest speakers and Q&A sessions with representatives from DWR, Sustainable Conservation, and local grower groups.

The Honorable Bill Quirk
Chair, Assembly Committee on Environmental Safety and Toxic Materials
Legislative Office Building Room 171
Sacramento, CA 95814

RE: AB 377 (R. Rivas) – Water Quality: Impaired Waters – OPPOSE

Dear Chair Quirk,

On behalf of Stockton East Water District, I am writing to respectfully oppose AB 377, which would overhaul the existing National Pollutant Discharge Elimination System (NPDES) permitting process in California by removing Regional Water Quality Control Board (Regional Board) discretion to make decisions based on local conditions.

Permitting decisions are long and complex; they undergo a public process with input from a broad array of stakeholders and final decisions are issued by the Regional Boards based on local conditions. As written, this bill would circumvent the regulatory authority of the Regional Boards by rewriting existing permitting policies without regard to existing policies and considerations, local conditions, most existing agreements, and other priorities of the state. These decisions should be local and allowed the appropriate flexibility to address specific conditions.

This bill is flawed in its assumption that the existing permitting process is so broken that it needs to be changed from the top down. Local discretionary authority for permitting of discharge permits is central to the structure of state and regional board oversight under the Porter-Cologne Water Quality Control Act. Setting prescriptive permitting parameters and compliance requirements for every permit across the state would be a major departure from allowing local discretion and would have serious adverse consequences.

Permits issued under the various discharge programs are incredibly diverse and complex. There are significant variations within these permits depending on the type of discharger, the point of discharge and the conditions of the receiving surface water. A drinking water system discharge is significantly different from a wastewater discharge, stormwater discharge, or agricultural discharge, and this bill would attempt to subject them to a uniform statewide regulation. If enacted, these new requirements could have other unintended

consequences because of the broad scope of the legislation and variety of permits and permittees impacted.

Amendments to the bill to date have tried to address specific concerns, like attempting to exempt negotiated extended compliance periods for the CV Salts program in the Central Valley. But what these amendments fail to do is address the fundamental challenge that this bill would prohibit a similar type of appropriate extended compliance period for a different issue in the future. The current statutory framework for discharge permit decisions by the Regional Boards appropriately allows for this kind of discretion based on the specific local conditions.

For these reasons, Stockton East Water District has serious concerns about this bill and respectfully requests your “No” vote when it is heard in the Assembly Committee on Environmental Safety and Toxic Materials.

Sincerely,

A handwritten signature in black ink, appearing to read "S. A. Moody".

April 6, 2021

The Honorable Eduardo Garcia
Chair, Assembly Committee on Water, Parks & Wildlife
State Capitol, Room 4140
Sacramento, CA 95814

**RE: AB 1434 (Friedman) – Indoor Residential Water Use Standards -
OPPOSE**

Dear Chair Garcia,

On behalf of Stockton East Water District, I am writing to respectfully Oppose AB 1434, which would arbitrarily change the indoor water use standards established by AB 1668 (Friedman, 2018). This bill proposes to incrementally lower the indoor water use standard starting in January 1, 2023 to reach a standard of 40 gallons per capita daily (GPCD) starting in 2030. Further the bill removes the requirement for the Department of Water Resources (DWR), in consultation with the State Water Resources Control Board (State Water Board), to submit a report (DWR Report) on the result of its indoor water use studies and make recommendations regarding the existing standards.

AB 1668 and SB 606 (Hertzberg, 2018) were a package of bills that implemented new water use efficiency standards, of which one part is the indoor water use standard this bill proposes to change. The provisions in these two bills were closely negotiated by stakeholders in the water community as well as members of the Legislature and environmental community. An important component of those negotiations was the requirement for DWR to conduct studies to identify a standard for indoor residential water use that reflects best practices.

The DWR Report was due January 1, 2021, but has not yet been made public. It is anticipated, based on the existing statutory requirements, that any forthcoming report or set of recommendations would be in draft form, because it is required by law to be finalized in collaboration with and input from stakeholders. Stakeholders have not yet seen any draft study results or recommendations from DWR or the State Water Board.

Our agency supports evidence-based decision making, and this bill does not rely on evidence because the DWR Report has not yet been finalized or released to the public. This bill is premature, and goes back on the agreements that were made when AB 1668 and SB 606 were passed and signed into law. Changes to the indoor water use standards should not even

be considered prior to the final DWR Report being released. The new indoor use standards in this bill are not based on robust findings and an analysis of the benefits and impacts of how the changing standard will impact water and wastewater management, including potable water use, wastewater, recycling and reuse systems, infrastructure, operations, and supplies.

For these reasons, Stockton East Water District has serious concerns about this bill and respectfully requests your "No" vote when it is heard in the Assembly Committee on Water, Parks & Wildlife.

Sincerely,

A handwritten signature in black ink, appearing to read "S.A. Moody", written in a cursive style.

Scot A. Moody
General Manager, Stockton East Water District
