THE REGULAR MEETING OF THE BOARD OF DIRECTORS
OF STOCKTON EAST WATER DISTRICT WAS HELD AT THE DISTRICT OFFICE
6767 EAST MAIN STREET, STOCKTON, CA
ON TUESDAY, OCTOBER 25, 2022 AT 12:30 P.M.

A. PLEDGE OF ALLEGIANCE AND ROLL CALL

President Watkins called the regular meeting to order at 12:30 p.m., and Director McGaughey led the Pledge of Allegiance.

Present at roll call at the District were Directors Cortopassi, McGaughey, Panizza, Sanguinetti and Watkins. Also present were Manager Hopkins, Assistant Manager Vega, District Engineer Evensen, Finance Director Ram, Administrative Assistant McKinney, Administrative Clerk Feliciano, Legal Counsel Zolezzi and Consultant Barkett. Directors Atkins and McGurk were absent.

B. CONSENT CALENDAR (None)

C. PUBLIC COMMENT (None)

D. SCHEDULED PRESENTATIONS AND AGENDA ITEMS

1. JWT and Associates, LLP – Certified Public Accountants – Audited Financial Statements Presentation for Fiscal Year 2021-2022

Manager Hopkins provided information to the Board on the Audited Financial Statements for Fiscal Year 2021-2022. President Watkins introduced Jeremy Ware from JWT and Associates, LLP. Mr. Ware was present to give the yearly audit presentation to the Board. Mr. Ware noted he works directly for the Board of Directors and the main role of Staff is to answer questions and provide data during the audit process.

Mr. Ware gave a presentation on the District's draft Fiscal Year 2021/2022 Audited Financial Statements. Mr. Ware stated he has been servicing this account for a few years, and mentioned this year has been a big year of transition within the management team. He reminded the Board, that the financial statements are a big responsibility of the management team. Mr. Ware reported JWT performs audit procedures and issues the audit report. They are hired to represent the Board and the public as certified public accountants. Mr. Ware commented he appreciates this time on the agenda to present this report.

Mr. Ware gave a summary to the Board of the four (4) required communications (1. The Independent Auditors' Report and explanation of the Basis for Qualified Opinions; 2. Managements' Discussion and Analysis; 3. Statement of Net Position; 4. District's Statement of Revenues, Expenses and Changes in Net Position). Mr. Ware noted the District received an unmodified (unqualified) opinion, the highest rating to receive on the financial statements. He stated, while working with management, there were no audit adjustments, disagreements or difficulties.

Overall, Total Assets for the fiscal year are \$142 million, the Net Position is ~ \$90 million, with an increase in Net Position of about \$13.8 million. Mr. Ware reviewed the balance sheet, and stated the actual financial statements are on page 13. The Statement of Net Position is organized by assets, cash or benefits to our organization as of March 31, 2022, as compared to March 31, 2021. Overall, the District is in a very healthy position. Mr. ware noted cash balances are strong, investments increased over the year, which caused assets to be at \$142 million, up from \$134 million last year. Liabilities and Net Position are very consistent from year to year. Mr. Ware indicated these liabilities are dollars

owed to vendors, debtors, and to personnel for vacation and payroll. Other Post-Employment Benefits (OPEB) decreased from \$6.1 to \$5.7 million. These are benefits being paid to retired employees. Since the District doesn't have a trust set up for funds being put aside for OPEB, the full amount of the liability is reflected on the balance sheet. Even though, there is some cash and assets available to pay these liabilities, a trust hasn't established the way GAAP requires it to offset the liability. Thus, the full liability is reflected on the financials.

Mr. Ware indicated the Net Pension Liability with CalPERS decreased substantially this past fiscal year, but the decrease was partially offset by some accounting adjustments to Deferred Outflows of Resources. Thus, overall, net pension liability did not change dramatically. Mr. Ware continued by noting the net position is the net assets (reserve), and this did increase from \$76 million to \$89 million in the fiscal year ending March 2022.

Mr. Ware indicated the Statement of Revenues works in tandem with the balance sheet. This is a recording of everything that has happened over the past 12 months. This has been unique with staffing, COVID and shutdowns, and it is impressive to have these results for the 12-month period ending March 31, 2022. In brief, revenues increased from \$29 million to \$31 million, operating expenses were consistent from \$22-\$23 million with a net operating profit of \$7.9 million. Interest expense and developer fees increased non-operating revenues, which in turn helped increase the net position by \$13.89 million. Mr. Ware reiterated, the fiscal year started with a reserve of \$76 million, and ended with a reserve of \$89 million.

Mr. Ware closed his summary with final thoughts stating the District is on solid footing, and the transition of management has been commendable with Manager Hopkins making himself available. He stated the audit could not have happened without the opportunities offered by Assistant Manager Vega and Finance Director Ram.

Director Cortopassi asked if net pension liability is the Unfunded Accrued Liability CalPERS normally reports. Mr. Ware stated there are assets CalPERS takes into consideration to pay off retirement liabilities which leaves the unfunded accrued liability. Mr. Ware stated the net amount has decreased.

Assistant Manager Vega stated if the Board is comfortable with the financial statements, they can approve them as they are, or if the Board wants more time to review the financial statements, they can follow previous precedent and Staff can bring the audit back for approval the following week. After a brief discussion, President Watkins stated it was the Board's preference to allow for a week's review of the statements, and bring the item back the following week.

2. Minutes 10/25/22 Regular Meeting

Manager Hopkins commented he was incorrect last week by stating the 42-gallon per day per capita water use bill, SB222, was vetoed. SB222 is actually the bill for water rate assistance, and not the 42-gallon per day per capita water use bill (SB1157).

A motion was moved and seconded to approve the October 25, 2022 Regular Board Meeting Minutes, as amended.

Roll Call:

Ayes: Cortopassi, McGaughey, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: Atkins, McGurk

3. Warrants

- a. Fund 68 – Municipal & Industrial Groundwater Fund
- b. Fund 70 – Administration Fund
- c. Fund 71 – Water Supply Fund
- d. Fund 89 – Fish Passage Improvements Fund
- e. Fund 91 – Vehicle Fund
- f. Fund 94 – Municipal & Industrial Fund
- g. Summary
- h. Payroll
- i. Short Names/Acronym List
- j. SEWD Vehicles & Heavy Equipment

A motion was moved and seconded to approve the October 25, 2022 Warrants as presented.

Roll Call:

Ayes: Cortopassi, McGaughey, Panizza, Sanguinetti, Watkins
Nays: None
Abstain: None
Absent: Atkins, McGurk

4. Association of California Water Agencies – Notice of General Session Membership Meeting on November 30, 2022 Memo, 10/05/22

Manager Hopkins provided the Board with a memo regarding Association of California Water Agencies – Notice of General Session Membership Meeting on November 30, 2022.

Manager Hopkins stated ACWA is looking for our district to nominate one of our Board members to vote on November 30th for the Amended and Restated Bylaws approved by the ACWA Board. Manager Hopkins asked for a delegate to be nominated who will be present at the ACWA meeting on November 30th. President Watkins nominated Director Atkins or Director McGurk. It was decided by the Board to nominate Director McGurk.

A motion was moved and seconded to designate Director McGurk as the District’s voting representative with the ACWA convention.

Roll Call:

Ayes: Cortopassi, McGaughey, Panizza, Sanguinetti, Watkins
Nays: None
Abstain: None
Absent: Atkins, McGurk

5. Stockton East Water District – Agreement Amendment for Bellota Project 100% Design Memo, 10/25/22

Manager Hopkins provided the Board with a memo regarding an Agreement Amendment for Bellota Project 100% Design. Manager Hopkins reported back on November 5, 2019, the Board approved a professional services agreement with KSN for \$2.9 million for the design of the Bellota Weir project. As reported last week from ECORP, the project ended up being larger and more complex than initially proposed by KSN. On September 29th, the district received a request for an amendment to the professional services agreement for an additional \$117,781 to cover consulting costs for KSN and their sub-consultant HDR. Manager Hopkins stated discussion with Department of Fish and Wildlife (Grantor) agreed to move some money around to cover the additional cost.

A motion was moved and seconded to approve the amendment to the Professional Services Agreement with Kjeldsen, Sinnock & Neudeck (KSN) Inc. for an amended amount of \$117,781, for a total revised not to exceed cost of \$3,065,699.

Roll Call:

Ayes: Cortopassi, McGaughey, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: Atkins, McGurk

6. Stockton East Water District – Peters Pipeline Constant Head Vault Gate Memo, 10/25/22

Manager Hopkins provided the Board with a memo regarding Peters Pipeline Constant Head Vault Gate.

Manager Hopkins introduced Assistant Manager Vega to report. Assistant Manager Vega set forth that as part of the fiscal year 2022-23 budget, the Board approved \$55,000 to address the constant head vault (CHV) at Peters Pipeline. In order to provide maintenance access and for safety concerns, a gate is needed to stop flow. Currently, there is no way to stop flow if someone is working on the constant head vault. Staff received quotes, and a discounted quote was received from Fresno Valve for \$28,343 which is recommended by Staff and which is well under the budgeted amount of \$55,000.

President Watkins asked if the gate is on the 66" pipe, the center wall, or the 78" pipe. District Engineer Evensen stated that the gate would be placed on the 66" outlet pipe. President Watkins clarified the CHV vault is a square building with a 66" pipe at the outlet end, a 48" out the bottom to the Bellota Pipeline which is 54", and a 78" pipe coming into it with a center wall. The center wall has an overflow over the top. It was the opinion of President Watkins if you put pressure on the CHV, the pipe would blow out. President Watkins asked if the valve is going to hold water behind it? District Engineer Evensen stated yes. Director Sanguinetti asked how many leaks the Peters Pipeline has sustained. There have been complaints in the past regarding leaks at Dietrich Road. President Watkins stated that Peters Pipeline has been relined from Potter Creek to the CHV. District Engineer Evensen stated that the condition of the Peters Pipeline is his same concern, and the pipeline assessment is added to next year's preliminary budget. Manager Hopkins stated there was a safety concern with Staff working in the 66" Vault downstream while water flowing from the CHV. Manager Hopkins mentioned that there was no way to control water flow except at the Copperopolis gates on the south side of Copperopolis Road in the canal which is quite a distance away. The Peters Pipeline builds up enough head to flow over the railroad track bridge at Vault 66 but flow is limited. President Watkins commented the Peters Pipeline vault was originally designed to have 18 feet of head. Director Cortopassi suggested Staff have discussions with President Watkins and Director Sanguinetti to do the right thing as they know the history of the vault.

A motion was moved and seconded to authorize the purchase of the Fresno Valve & Casting slide gate in the amount \$28,343, plus a 10% contingency of \$2,835, for a total cost of \$31,178.

Roll Call:

Ayes: Cortopassi, McGaughey, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: Atkins, McGurk

7. Stockton East Water District – Duck Creek Traveling Water Screen Improvements Memo, 10/25/22

Manager Hopkins provided the Board with a memo regarding Duck Creek Traveling Water Screen Improvements. Manager Hopkins introduced Assistant Manager Vega to report. Assistant Manager Vega stated the Duck Creek screen is the first one in the Lower Farmington Canal system, being the first screen, it typically handles more debris than the other screens. Back in 2008, a screen was installed with chain gear drive, a conveyor, and elevator that have issues with corrosion and operations, Staff recommends that the chain drives be replaced with direct drive gear boxes and a new drive motor, elevator and conveyors. The request for improvements is under the budget for this fiscal year which is \$130,000.

President Watkins asked if the conveyors are being rebuilt or installing new ones. Assistant Manager Vega replied chains and elevators are being taken out and replaced with new ones. Manager Hopkins clarified the screens placed in the water are staying, and have been retrofitted with gear drives, but the chains dump onto a conveyor which lift up to an elevator. The pieces out of the water are being replaced.

A motion was moved and seconded to authorize the purchase of the Duck Creek traveling water screen improvements and installation from IWS for \$88,136.25, plus a 10% contingency of \$8,813.63, for a not to exceed amount of \$96,949.88.

Roll Call:

Ayes: Cortopassi, McGaughey, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: Atkins, McGurk

8. Statement of Consistency Pursuant to Execute Order N-7-22 and Findings of Fact Stockton East Water District Groundwater Sustainability Agency Statement of Consistency Pursuant to Executive Order N-7-22 – Well Permit Application for 7403 State Route 4, Stockton, CA

Manager Hopkins provided the Board with the Statement of Consistency Pursuant to Execute Order N-7-22 and Findings of Fact Stockton East Water District Groundwater Sustainability Agency Statement of Consistency Pursuant to Executive Order N-7-22 – Well Permit Application for 7403 State Route 4, Stockton, CA. Manager Hopkins reported he received a new well application from San Joaquin County for a property located on State Route 4. Manager Hopkins added the County requires a Statement of Consistency stating the new well aligns with our groundwater sustainability plan.

President Watkins reported the new well is being applied for by the previous owners. President Watkins stated the County requires a Statement of Consistency stating the new well aligns with our groundwater sustainability plan.

A motion was moved and seconded to approve the Statement of Consistency Pursuant to Execute Order N-7-22 and Findings of Fact Stockton East Water District Groundwater Sustainability Agency Statement of Consistency Pursuant to Executive Order N-7-22 – Well Permit Application for 7403 State Route 4, Stockton, CA, as presented.

Roll Call:

Ayes: Cortopassi, McGaughey, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: Atkins, McGurk

E. COMMITTEE REPORTS

1. San Joaquin County Flood Control and Water Advisory Commission Meeting, 10/19/22
Director McGurk is absent. Manager Hopkins stated he did not attend the October 19, 2022 San Joaquin County Flood Control and Water Advisory Commission Meeting. President Watkins directed Manager Hopkins to bring the item back to next week's meeting.
2. Eastern San Joaquin Groundwater Authority Technical Advisory Committee (TAC) Meeting, 10/20/22
Manager Hopkins attended the October 20, 2022 Eastern San Joaquin Groundwater Authority Technical Advisory Committee (TAC) Meeting. Manager Hopkins reported the committee reviewed all groundwater projects that were submitted for SGMA, round two grant funding. There were eight or nine projects presented to those in attendance. The projects were reviewed and the committee considered ways to rank them consistent with the grant solicitation package. Six projects were selected for recommendation to the steering committee for recommendation to the Board. Stockton East Water District has two projects on the list. One is the infrastructure to connect the west groundwater recharge basin to our water supply facilities, with a budget of \$1.5 million and the Bellota project for a budget of \$14 million. The overall packet will be \$20 million. The concession with the Bellota project is if DWR does not have a full budget (\$20 million) for the basin, the fraction of money will come from the Bellota, and the other remaining five projects get funded in the whole. A special meeting for the Eastern San Joaquin Groundwater Authority Steering Committee has been scheduled for November 3, 2022.

Director Cortopassi asked if funding of the design for Bellota \$14 million. Manager Hopkins stated this is first phase of construction. The next scheduled meeting is to be determined.

F. REPORT OF GENERAL MANAGER

1. Water Supply Report as of 10/17/22
Manager Hopkins provided a handout of the Water Supply Report for information only that included storage, release, and production data collected from various sources as of midnight last night.

There is 51,904 AF in storage at New Hogan Reservoir. Current releases are set at 74 cfs. Current release at Goodwin Dam to Stanislaus River are set at 437 cfs and release to all water users are set at 0 cfs. There are 0 irrigators on New Hogan, 0 irrigators on New Melones, and 0 irrigators out of District. The water treatment plant is currently processing 41 mgd. The City of Stockton is currently processing 13 mgd. Manager Hopkins reported the District wells total water extraction is 6,885 gpm (~9.9 mgd).

2. Information Items:
Manager Hopkins noted item: F2a-1, F2a-2 and F2a-3.

Director Cortopassi asked about water supply, can we ask for water from the Bureau of Reclamation. Manager Hopkins stated if we ran out of New Hogan supply, we could request. President Watkins stated they have always denied it.

3. Report on General Manager Activities
 - a. San Joaquin County Office of Emergency Services – Agricultural Drought Task Force Meeting, 10/19/22
Assistant Manager Vega attended the October 19, 2022 San Joaquin County Office of Emergency Services – Agricultural Drought Task Force Meeting. Assistant Manager Vega offered an update

from The National Weather Service with the year ending in September. In the Sierras, an average year is 39.9" of precipitation while this year was only 25.3 inches. Most of the precipitation happened in October and December of 2021, everything else was pretty much dry. The Stockton Airport has a measuring device where precipitation was measured at 9.87" which is 73% of normal which is 13.45". The future outlook is still seen as a weak La Niña, which means either a dry year or normal year, but never a wetter than expected year. The expectation is above normal temperatures through December and then no clear signal for precipitation for the upcoming calendar year although they expect dryer than normal conditions.

- b. Central Valley Project Water Association – Executive & Financial Affairs Committee Meeting, 08/19/22. Finance Director Ram attended the October 21, 2022 Central Valley Project Water Association – Executive & Financial Affairs Committee Meeting. Finance Director Ram reported the 2022 CVP water rates have been posted online for review. These rates are estimates because they have used the seven-year water delivery average. Finance Director Ram stated CVP contractors advised us to keep this into consideration when transferring water. For example, the storage and water marketing rate is listed at \$31 per AF, but could go up to \$122 per AF since it's going to be a dry year.
- c. Stockton East Water District Activities Update
Manager Hopkins reported stated we are ordering SEWD apparel and a catalog is available for interested directors. Yesterday, President Watkins, Manager Hopkins, Legal Counsel Zolezzi and Consultant Barkett, met with LAFCo regarding consolidation. The new executive officer seems to have a clear plan to move forward, and hopeful to have the MSR on the January 12th or February 9th Board agenda for approval. Tomorrow Manager Hopkins has a meeting with the NRCS to coordinate District projects with funding that will be coming in. Lastly, a DWR pre-flood workshop was held today. As far as water is concerned through with low rainfall through February, and February through May will be normal

G. DIRECTOR REPORTS

- 1. Greater Stockton Chamber of Commerce – 2022 San Joaquin Agricultural Hall of Fame Awards Dinner, 10/20/22
Directors Cortopassi, Sanguinetti and Manager Hopkins attended the October 20, 2022 Greater Stockton Chamber of Commerce – 2022 San Joaquin Agricultural Hall of Fame Awards Dinner. Director Cortopassi stated he knew all honorees. Jim Tanaka who is 96 years old and his brother Sam. Director Sanguinetti said it was a sold-out crowd, very nice, a lot of people from Lodi. Very nice function. Bruce Fry who was a good agricultural teacher, very involved with kids.

H. COMMUNICATIONS (None)

I. AGENDA PLANNING/UPCOMING EVENTS

- 1. San Joaquin Farm Bureau Federation – Water Committee Meeting, 10/25/22
- 2. ACWA State Legislative Committee Meeting, 10/28/22

J. REPORT OF THE COUNSEL

- 1. Closed Session - Existing Litigation
Stockton East Water District vs. City of Stockton, et al.
Government Code 54956.9 (a)

2. Closed Session - Potential Litigation
Government Code 54956.9 (c) – one case

President Watkins adjourned the meeting to closed session at 1:18 p.m. to discuss closed session agenda items. The regular meeting reconvened at 1:56 p.m., with the no reportable action.

K. ADJOURNMENT

President Watkins adjourned the meeting at 1:57 p.m.

Respectfully submitted,

Justin M. Hopkins
Secretary of the Board

Independent Auditor's Report

To the Board of Directors
Stockton East Water District

Opinion

We have audited the accompanying financial statements of the business-type activities of Stockton East Water District (the District), as of and for the years ended March 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the business-type activities of Stockton East Water District, as of March 31, 2022 and 2021 and the changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

Exercise professional judgment and maintain professional skepticism throughout the audit.

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.

Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Districts's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Re: CEQA- Bellota Weir Modifications Project

Background

The Bellota Weir Modifications Project’s CEQA (California Environmental Quality Act) document has been circulated and is ready for Board approval. Once approved, the Initial Study and Mitigated Negative Declaration (IS/MND) requires the General Manager’s signature. The District is the lead agency and applicant for the Bellota Weir Modifications Project.

Recommendation

Staff recommends the Board authorize the General Manager to finalize the CEQA documents by approving and signing the Initial Study and Notice of Determination.

FINAL MITIGATED NEGATIVE DECLARATION
BELLOTA WEIR MODIFICATION PROJECT

Project Title: Bellota Weir Modification Project (Project)

Lead Agency: Stockton East Water District

Project Proponent: Stockton East Water District

Project Location: On the Calaveras River at the fork of Mormon Slough and the Old Calaveras River, approximately 17 miles downstream of the New Hogan Dam. The Project Area is situated north of Escalon-Bellota Road between State Route 26 on the west and East Shelton Road on the southeast. The Project site includes 15.5 acres and is accessed from two existing gated entrances: one at 42340 State Route 26 (referred to as the north entrance) and one at 24645 East Shelton Road (referred to as the east entrance).

Project Description: The Stockton East Water District (SEWD or District) proposes the Bellota Weir Modifications Project. The Project is a continuation of the Calaveras River Anadromous Fish Protection Project. The Project includes removal of the existing weir and construction of several new elements intended to provide more reliable water delivery systems for SEWD customers, improve migration of both juvenile and adult fish, and reduce fish entrainment at the facilities, thereby enhancing populations of anadromous salmonids using the Calaveras River (CH2M 2003). The following Project actions will be taken to achieve these goals:

- Replace the existing profile control infrastructure
- Provide fish passage facility for fish species throughout various life stages at Project site
- Provide fish exclusion and protection measures for SEWD intake at Bellota Weir
- Exclude fish from migrating downstream into the Old Calaveras River
- Maintain existing flood conveyance

For Project details, see Draft IS/MND Chapter 2.0 Project Description (Appendix A).

Finding: Based on the information contained in the attached Initial Study, SEWD finds that there would not be a significant effect to the environment because the mitigation measures described herein would be incorporated as part of the Proposed Project.

This is to certify that the Final Initial Study/Mitigated Negative Declaration including comments and responses, the Mitigation Monitoring and Reporting Plan, and record of Project approval is available to the general public at: 6767 East Main Street, Stockton, California, 95215.

Draft IS/MND Public Review Period: September 16, 2022 – October 17, 2022

SAN JOAQUIN, CALIFORNIA

**Draft Initial Study with Proposed
Mitigated Negative Declaration**

**Prepared by:
Stockton East Water District**

6767 East Main Street
Stockton, CA 95215

NOTICE OF INTENT

TO ADOPT A MITIGATED NEGATIVE DECLARATION FOR THE PROPOSED FUGAZI BROTHERS PUMP TURNOUT PROJECT OF MORMON SLOUGH

Notice is Hereby Given that an Initial Study/Mitigated Negative Declaration (IS/MND) is available for public review for the Fugazi Brothers Pump Turnout of Mormon Slough project described below pursuant to the provisions of the California Environmental Quality Act of 1970 (Public Resources Code 21100, et seq.)

Project Description and Location

John Fugazi proposes to install a new pump turnout in Mormon Slough at 5503 N. Fine Road, in Linden CA. The new turnout would supply water for 43.85 acres of almond orchard. The pump will include an 8" pipeline with a flowrate of 500 gallons per minute. A 6" concrete slab would also be poured near an existing well to allow for the installation of a two-tank sand media filter. Stockton East Water District (District) is the CEQA lead agency.

Document Review and Availability

The public comment period will extend from September 16, 2022 to October 16, 2022. Copies of the IS/MND are available for public review at the Stockton East Water District, 6767 East Main Street, Stockton, CA 95215, 8:00 AM to 5:00 PM, Monday through Friday.

This IS/MND can also be reviewed and/or downloaded from the Stockton East Water District website at the following link: www.sewd.net.

During the public review period, written comments on the IS/MND may be provided to:

Darrel Evensen, District Engineer
Stockton East Water District
6767 East Main Street
Stockton, CA 95215
209.948.0537
devensen@sewd.net

The Draft Initial Study with Proposed Mitigated Negative Declaration was circulated for public comment from September 16th, 2022 to October 17th, 2021. All comments received during the circulation period have been reviewed and addressed by the District and included within Appendix B of the final document. Any changes made to the final document as a result of public comments are notated in a track changes sidebar.

~~PROPOSED~~ MITIGATED NEGATIVE DECLARATION

Pursuant to: Division 13, Public Resources Code

1. Project Name: *Fugazi Brothers Turnout Project of Mormon Slough*

Description of Project: John Fugazi proposes to install a new pump turnout in Mormon Slough at 5503 N Fine Road, in Linden CA. The constructed facilities will provide a low water crossing consisting of precast box culverts with wing wall foundations. The crossing will be up to 20 feet wide and have a length of 30 feet long. The crossing will arrive on site as multiple precast box culvert sections, each approximately 15 feet long. The full crossing width and length will be accomplished by securing multiple sections of precast box culverts together and adjacent to each other.

Project Location: The Project is located on the southern bank of Mormon Slough along North Fine Road in Linden, California.

2. Date: Septemeber 16, 2022

3. Lead Agency: Stockton East Water District

4. Name and Address of Applicant:

John Fugazi
PO Box 807
Stockton, CA 95236

5. Contact Person: Darrel Evensen, District Engineer, 209.948.0537

6. Declaration:

Stockton East Water District has determined that there is no substantial evidence that the above project, as mitigated, may have a significant effect on the environment and proposes that a Mitigated Negative Declaration be adopted. The determination is based on the attached Initial Study and the following findings:

- a) *The project will not degrade environmental quality, substantially reduce habitat, cause a wildlife population to drop below self-sustaining levels, reduce the number or restrict the range of special-status species, or eliminate important examples of California history or prehistory.*
- b) *The project does not have the potential to achieve short-term, to the disadvantage of long-term, environmental goals.*

- c) *The project will not have impacts that are individually limited, but cumulatively considerable.*
- d) *The project will not have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly.*
- e) *No substantial evidence exists that the project will have a negative or adverse effect on the environment.*
- f) *The project incorporates all applicable mitigation measures identified in the Initial Study.*
- g) *This Mitigated Negative Declaration reflects the independent judgment of the lead agency.*

Written comments on the Initial Study and proposed Mitigated Negative Declaration shall be submitted no later than 5 PM on October 16, 2022.

Submit comments to:
